Testimonials

“When we go down the steep hills it works good because we have the remote that automatically winds the hose back in and helps you get up the hill. It’s been in some pretty rough terrain – all the rocks, steep hills and prickly blackberries yet the TTI unit hasn’t missed a beat.”

Stefan, Bulla Thoroughbreds

“The TTI SuperReel does stand up to the conditions here. We pull them down very steep gullies and right out to the 150m and they don’t struggle one bit. They pull back up the hill – they’re unreal!”

Chris, Spraying Contractor
