Wireless Control

Easily control the trailer functions from the comfort of your vehicle.

Benefits:

- Accurately and efficiently apply water, when and where you need it
- Save time by remaining in your vehicle - and keeping you safe

What can I wirelessly control:

- Engine (Start/Stop)
- Turn Deflectors Spray Heads On and Off
- Turn Dribble Bar on/off

Testimonials

“Best thing I’ve ever bought!
We use this unit for soil compaction, roadworks and keeping the dust down. It’s very versatile...
The remote control – best thing I’ve ever seen!”

Peter, Bulldog Earthmoving

“We needed a water cart to transfer water to our mud mixing units on site, this [TTi AquaPath] saves a lot of downtime...
It’s flexible to use – we use it as a spray cart as well...”

Daniel, Healesville Directional Drilling

“All the previous water carts we used have never had the guts or the power to compete with the wind in the Northern Suburbs, but with the TTi one, we have plenty of pressure to get the watering done.”

Gareth, Regal Innovations

“All the actuators are operated easily with a button on the remote control. Real simple to use - Good concept! We can undo everything and have it off in 10 minutes if we need to use the truck for other uses.”

Michael, ACE Contractors

Water Carts

TTi manufactures and supplies a extensive range of industrial water carts & equipment. Our range includes water trucks, slip on water carts, water cart trailers, diesel tanks and pressure cleaning equipment.
